

## **Just-In-Time Manufacturing**

**GOAL:** This workshop leads the students through the steps in understanding the concepts of Just-In-Time manufacturing. It focuses on the techniques and benefits of JIT.

**BENEFITS OF TRAINING:** At the end of the course you will have all the tools required to implement your own JIT program.

**HOW THE PROGRAM WORKS:** The program features hands-on JIT workshops to bring the techniques to life.

### **PROGRAM OUTLINE:**

You will learn about

Eliminating process waste

- Leveling production
- Kanban
- Standard work
- U- shaped cells
- Autonomation
- JIT support techniques

**METHODOLOGY:** Training sessions are comprised of lecture, hands-on workshops, written exercises, large and small group discussions, PowerPoint and video recording.

**WHO SHOULD ATTEND:** Manufacturing managers and supervisors, engineering, and quality control managers and personnel, quality control personnel, machine operators, and other personnel involved in developing and operating an LEAN program.
