

Mistake Proofing

GOAL: This workshop leads the students through the steps in understanding the basic principles of mistake proofing. You will learn how Zero Quality Control and Mistake-Proofing devices strive to eliminate errors in manufacturing.

BENEFITS OF TRAINING: At the end of the course you will have learned about Poka-Yoke systems, Zero Quality Control, Zero Defect principles.

HOW THE PROGRAM WORKS: The program features hands-on workshops involving actual products to bring the techniques to life.

PROGRAM OUTLINE:

You will learn about

- Poka-Yoke
- Zero quality control
- Mistake proofing devices
- Finding conditions that cause defects
- Designing mistake proofing devices

METHODOLOGY: Training sessions are comprised of lectures, hands-on workshops, written exercises, large and small group discussions, PowerPoint and video recording.

WHO SHOULD ATTEND: Manufacturing managers and supervisors, engineering, and quality control managers and personnel, quality control personnel, machine operators, and other personnel involved in developing and operating a manufacturing facility.
